

STATEHOOD BILL TO BE REPORTED

Committees on Territories to
Bring in Their Measure

TIME EARLY NEXT WEEK

Democratic Members Will
Submit Minority Report.

Washington, March 25.—The statehood bill will be reported to the house by the committee on territories early next week, but in such shape that a partisan fight inevitably will follow. The sub-committee in charge of the several statehood measures agreed upon the provisions of a bill, and this bill will be submitted to the committee on territories soon. It is an omnibus measure, and the Democratic members of the committee will submit a minority report recommending that two statehood propositions be considered instead of the omnibus bill.

It was learned that the bill consists of thirty-eight sections, nineteen of which are devoted to Oklahoma and the Indian Territory, and nineteen to New Mexico and Arizona.

The provisions of the Oklahoma bill are practically those outlined in dispatches recently. The new state is to be divided into five congressional districts and two United States judicial districts, the eastern and western.

The headquarters of one of the court districts is to be at Guthrie and the headquarters of the other at Muskogee. The state is to receive an appropriation of \$5,000,000 for school purposes, on account of the fact that there are no public lands in the Indian Territory. All restrictions with reference to the alienation of lands are withdrawn, except those relating to the homesteads of allottees. It is provided, however, that nothing in the bill shall be construed as conflicting with agreements and treaties in connection with the taxation of allotments. The constitutional convention is to consist of 110 delegates, sixty from Oklahoma and fifty from Indian Territory.

The state to be formed by the union of New Mexico and Arizona is divided into three congressional districts and two United States judicial districts.

MEDICAL SOCIETY MEETS.

Important Matter Is Considered by the Physicians.

Oklahoma City, O. T., March 25.—An important meeting of the Oklahoma County Medical association was held in the Chamber of Commerce assembly room last night, says the Oklahoman. About thirty representatives of the local medical fraternity were in attendance, while Dr. Hamilton, of Shawnee, and Dr. Sharp of Guthrie, members of the territorial board of health, were present and participated in the deliberations of the society.

Dr. A. D. Young presided over the deliberations, which early developed a most interesting turn, it being announced that the body would especially consider the matter of elevating the tone of the profession in Oklahoma by considering ways and means of ridding the territory of the army of quack doctors who are drifting into Oklahoma from every point of the compass, and especially those who are colonizing in Oklahoma City.

Some special instances of alleged quackery were brought to the attention of the society and, relative to an alleged physician and surgeon of the electric school who has been practicing in this city for some time, a letter was read from the editor of the Kansas City Times, in which the man who claimed to be a graduate of the leading electric school in London was not known to the profession there and that his name did not appear upon the records of the school.

Dr. Hamilton, of Shawnee, member of the territorial board of health, delivered a lengthy address to the society upon the work of the board for several years past, and explained the applications of the old law and the new regulating the practice of medicine in Oklahoma. He was proud to know that the profession of Oklahoma City had inaugurated a movement to rid the city and the territory of a very objectionable element. It was done in every county of the territory it would not be long until quackery would disappear from Oklahoma. Many men who should not be permitted to practice the profession were now practicing medicine in Oklahoma because of the laxity of the old law under the provisions of which any man had to be granted a permit to practice in order to be able to make a diploma from any medical school or would make affidavit of having practiced medicine for two years and present the affidavit to the responsible citizens vouching for his character and respectability. Such a law made it possible for men to secure a permit from the board of health by presenting a diploma from any school, whether a real school of medicine or only a school in name, such as are maintained in Chicago, Union City, Mich., and other places, which are merely take enterprises established to peddle meaningless diplomas to anyone who had the money to pay for them, it being said that hundreds and even thousands of the diplomas were sold for as low as thirty dollars. Dr. Hamilton declared that under the present board of health it was almost impossible for a diploma of the character designated into the hands of the quack. He believed it the duty of the county attorneys and county officers to locate such quacks and proceed against them. Their license should be revoked and, if discovered that they had been obtained by perjury, criminal proceedings should be instituted, and the speaker related that in his county several of these quacks, who had practiced in El Reno, had been convicted and sent to the penitentiary.

Dr. Sharp, of Guthrie, also a member of the territorial board of health, related that the present attorney general had become interested in the matter of ridding the territory of men who were illegally practicing medicine and had given his promise to proceed against all persons charged with this offense and to prosecute such action upon the part of the county attorneys throughout the territory.

A committee of the society which had been given the duty of reporting to the county attorney and the county super-

A LOVELY FACE.

Beauty Is the Greatest Power
of Attraction.

Women Recognize It; Men Bow
Before Its Shrine.

The Secret of Good Looks Disclosed—
How to Look Your Best.

Never was there a time when women did not try to make themselves beautiful. What is so lovely as a round, rosy face, white forehead and full red lips; what so annoying as the black-heads and pimples on the face, with the dirty greasy look which always accompanies them. Life is not worth living, the young girl thinks, because of the bad, unpleasant look of her skin, which she tries in vain to improve by the use of various cosmetics, ointments and powders, not knowing that all the while the trouble is not in the skin itself, but in the system. It is some times absolutely dangerous to use outside applications, for if the skin is simply cleared the disease is likely to attack some internal organ of the body, where it may prove fatal to life itself. But in purifying the blood the cure is natural, permanent and without any injury.

Miss Beatrice Shansky, 202 East 23d St., New York City, says—

"My work is very hard on the nerves, and I had become very nervous. I was always tired and worn out when night came. I was pale, and was getting very thin, and I did not feel like eating. Every little thing upset me, and I suffered a great deal from nervous headache. When I was feeling as though I could not stand it much longer, Dr. Greene's Nervura blood and nerve remedy was recommended to me. Some other members of my family had taken it a couple of years ago, and it did them much good. I decided to try it. I never took any other medicine that helped me as much as this did, and I am grateful to Dr. Greene for his wonderful remedy. I gained flesh rapidly, and after taking two bottles, now have a splendid color. My nerves are strong, and I no longer feel the strain of my work upon them. Dr. Greene's Nervura blood and nerve remedy has done for me what nothing else could do, and now I am able to do my work without being all dragged out when the day is done. I know Dr. Greene's Nervura blood and nerve remedy to be a splendid remedy for all business women, because it will keep them from breaking down under the nervous strain."

It is letters like these which prove the wonderful power of Dr. Greene's Nervura, the great blood and nerve remedy. By the use of this marvellous medicine the system is cleansed, giving a clear and healthy bloom, and freeing the complexion from blotches and pimples. It is nature's own remedy, a purely vegetable and perfectly harmless compound, the discovery of the celebrated Boston physician, Dr. Greene, of 181 Fifth Avenue, New York City, who can always be consulted free of charge, either personally or by letter.

tendent of health reported that cases had been reported to both these offices, but that they had declined to prosecute the cases. The committee was instructed to make its work and, in case the local authorities did not act, to report the matter to the attorney general.

The society, after arranging to hold its next meeting in the office of Dr. Taylor, on North Broadway, adjourned, and later enjoyed a banquet at Stewart's Cafe.

TENT WAS WRECKED.

Terrific Wind Whipped the Canvas to Shreds.

Elmhurst, O. T., March 25.—Disaster overtook the splendid tent in which Smith and Roper have been holding meetings, during the hurricane of Wednesday night, says the Eagle. Mr. Smith heard the wind and hastened to the tent, and he and Tom Hunt Beardsley battled heroically for an hour to keep it from blowing down, and they did so, but as the fury of the tempest increased it became evident that their task was a hopeless one, so they dropped the canvas. But the wind was blowing so terrifically that it literally whipped it to pieces. The canvas of the tent is probably a total wreck. The tent, which is owned by Mr. Smith, was made of the finest material and originally cost \$50.

Now take your reliable Spring Medicine—Hood's Sarsaparilla—America's Greatest Medicine.

TRIED TO BURN OUT.

Stockade Prevented a Draft and the Jail Was Saved.

Grand, O. T., March 25.—Early Friday morning the prisoners at the jail attempted to escape by burning the door. A small opening for the purpose of passing things to the prisoners exists in the door, and it was by enlarging this opening that they attempted to escape. Coal oil was poured on the door and the indications are that several attempts were made. No doubt the jail would have been burned had it not been for the stockade. There was no draught to fan the flames, and they would not burn long.

PONCA AND OTO AGENCIES GROW

New Buildings Are in Course
of Erection.

OLD ONE WAS BURNED

Expect to Open Up New School
May 1.

Perry, O. T., March 25.—A newspaper man from this city spent a day this week, says the Republican, at the Ponca and Oto Agencies which are under the management of Hon. H. M. Noble, who is superintendent and special disbursing agent of the Ponca and Tonkawa tribes of Indians, with headquarters at White Eagle, and Dr. A. W. Newman, superintendent and special agent of Oto and Missouri tribes, with headquarters at the Oto Agency. The Indian department has changed the name of the spelling from the Oto to Oto, but the postoffice department has not yet changed the name of the postoffice, so that the station is still known as the Oto Agency.

The Ponca Agency, located at White Eagle, is on a prominent divide near the Salt Fork river and overlooks the whole country. The have a fine large spring which furnishes the water supply for the whole Agency. They have an imposing school building and a good corps of clerks, teachers and other employees who are gentlemanly and ladylike. Mr. Noble has been meeting with remarkable success in persuading the red brothers to work, a number of them having put in several acres to crops by their own effort, some of them having sown as high as a hundred acres of oats. The prospects for a crop and the manner in which it has been put in is as good as that of the white man.

Dr. Newman, agent of the Oto reserve, has an efficient and accommodating corps of deputies. They are very busy now preparing to open the school on May 1. It will be remembered that the school buildings of the Oto Agency were destroyed by fire some time ago, and they are now just completing a new school building two and a half stories high with basement. The building will have steam heat, hot and cold water, and will be lighted with the acetylene gas system and the expense of the whole thing (\$20,000) will be taken from the Oto and Missouri funds. The Pioneer Telephone company have poles set to the Oto and Ponca agencies which will place them in direct connection with Perry.

DESCRIBES COURT HOUSE.

Woods County New Public Building Will Be Well Built.

Alva, O. T., March 25.—The Pioneer describes the new court house in process of erection as follows: The foundation is three feet wide and one foot deep, composed of cinders and cement tamped down solid as a rock; then the walls are of hard eye brick started 2½ feet wide on top of cement and drawn in to 20 inches wide and 12 inches high for the outside walls, and the same hard brick drawn in to 12 inches wide and 12 inches high for the inside partition walls. Then from there up four feet the walls are of hard red shale brick from Chanute and Cherokee, Kan. Then hard dressed white stone is used for the corner masonry at Chanute, Mo., is placed. On top of this begins the main walls 17 inches thick, the outside layer being fine red pressed brick (the same kind that was used for the Normal college building), and the balance hard red brick.

As soon as the outside walls of the basement were up they were plastered with a thick coat of cement in order to keep out dampness. So far the work and material used on the building are first class, and the many car loads of material on the ground is sufficient evidence that nothing but the best will continue to be used.

OKLAHOMA GRADUATE CHOSEN.

Texas Draws on A. and M. College for an Assistant.

Stillwater, O. T., March 25.—Another graduate of the A. and M. college has "landed" a good position. Arthur C. Lewis of the class of 1901, since his graduation an assistant in entomology and zoology in the college has been selected among a number of applicants as assistant to the state entomologist of Texas in the investigation of insects injurious to cotton. The investigation is being carried on under the direction of the department of agriculture at Washington. Mr. Lewis is thoroughly equipped for this work, and his many friends here are confident that he will fill his position to the satisfaction of all concerned.

IS NOT A CANDIDATE.

Colonel Roy Hoffman Will Not Enter the Lists.

Chandler, O. T., March 25.—The Tribune says that Roy Hoffman stated that he was not a candidate for delegate to congress.

"After mature consideration I decided some time ago that I would not be a candidate," said Col. Hoffman, "and as I am still receiving inquiries please say for me through the Tribune that I thank my many friends throughout Oklahoma for their kind interest and warm solicitation. While I am not a candidate myself, I am deeply interested in the campaign, and its results, and you may say that I am in the fight for single statehood and Democracy."

DUPED A WOMAN.

Then He Induced Her to Sell Her Farm.

Alva, O. T., March 25.—Sheriff Oates came in last night with W. A. Goodwin, charged with larceny, says the Pioneer. Goodwin went through a mock marriage ceremony in Woods county, and last fall had the woman he duped sell her farm, and they left for New Mexico. His wife and five children live at Port Cobb, I. T. He was captured by Sheriff Oates in Texas and is now in jail awaiting a hearing.

GRIP THAT FAILED

NARROW ESCAPE OF A WELL KNOWN FARMER AND HORSEMAN.

One of the Worst Assaults Known—John H. Robinson Attacked Three Times and Given Up for Dead.

An encounter with highwaymen on a lonely road in Dutchess Co., N. Y., would have been preferable to the experience through which Mr. John H. Robinson, of Manchester Bridge, N. Y., actually passed. In the former case he would doubtless have been quickly relieved of his watch and money and would have been left in a more or less bruised and dazed state by the roadside. But the loss of valuables would have been relatively small and within a few days he would have recovered from injuries and shock. Besides, such an attack would not be soon, if ever, repeated.

As it was, however, the assaults upon which he suffered occurred three times, cost him great loss of time and money and brought him to the very verge of death. Told by himself, his story is as follows:

"I was attacked three times during three years by grip, complicated with pneumonia, and my sufferings were terrible. I had some of the best physicians in the county, but none of them could give me any relief from the fearful pains in the back of my head, just at the base of the skull. For two weeks I was so low that no one, except the doctor and my wife, was permitted to come into my room and once I was given up for dead."

"How did you finally get on your feet?" asked the reporter.

"Why, I happened to read of two cases of grip that had been cured by Dr. Williams' Pink Pills for Pale People, so I got a box. After I had taken one box I felt much better and three boxes cured me completely."

"Have you had the grip since?"

"Yes, just once, a few years later, but a few doses of the same pills cured me again."

"Do you recommend this remedy to others?"

"I do, indeed, because I know the medicine is a grand good thing. No one ever had the grip worse than I did unless he died. It was the only thing that saved my life."

Dr. Williams' Pink Pills are such an excellent remedy for the grip and its after-effects, because they expel poison from the blood and supply tonic and nutritive elements to every organ and tissue. They quicken the appetite, improve the digestion, give strength to weak nerves, and, in short, forward all the processes that tend to rapid and complete recovery. Hence rheumatism, anemia, headaches, dizziness, nervous irritability and prostration rapidly disappear and the system is fortified against a recurrence of the original trouble. One of the most striking results of the use of Dr. Williams' Pink Pills, which is characteristic of the disease and which often takes a suicidal phase, is succeeded by elasticity of spirits. This great remedy is sold by all druggists throughout the world.

before Judge Leach's court yesterday to give his deposition in the now notorious "cotton pulling" case. He asked to be excused to look up some records to obtain the names of some parties from whom he had bought cotton. He failed to make his appearance again and it was later discovered, upon investigation, that he had packed his trunk and disappeared. An attachment was issued for Harris and the sheriff made a report substantially as given above.

Superintendent Bland of the compress company testified that Harris came to him Wednesday afternoon and asked if it would not be best for him (Harris) to leave, and Bland replied that he had better stand his ground.

Bland was asked if Harris' nervousness and question in this relation did not impress him as being suspicious, and replied that it did not.

The witness said Harris told him that he (Harris) shipped two boxes of cotton to W. A. Gage & Co., at Memphis, Tenn., on February 22; that one C. B. Beck was shipping the cotton a day after shipment had the bill of lading assigned to Harris. The bill of lading was introduced and also the check slip, and both were found in the handwriting of Harris.

Nothing else of importance was developed in the depositions taken yesterday. The work of taking depositions will be resumed Saturday.

This compress company has evidently become impressed with the belief that their has been practiced by some of its employees and is interested in knowing the truth in the matter. This was manifested in the proceedings yesterday, the company's attorney conducting a more rigid examination than that of the prosecution, while Mr. Vose, acting secretary of the company, suggested many pertinent questions that were put to Superintendent Bland.

It is believed that the company will have a warrant issued for the arrest of at least one of the employees that has been shown up under an unenviable light.

THREE-FOURTHS CROP.

C. V. Topping Has Been Studying the Wheat Situation.

Kingfisher, O. T., March 24.—C. V. Topping, secretary of the Oklahoma Millers' association, has received advices from every town of importance throughout the territory relative to the wheat crop situation and when interviewed on the subject stated that, with favorable weather from this time forward the territory would produce about three-fourths of a wheat crop. Going to a map on the wall of his office he said, "All along down the Santa Fe railway line and in that part of Oklahoma lying east of that line the crop condition is all right up to the present time."

Moving westward to the main line of the Rock Island railway, I learn that in Grant and Garfield counties the condition of wheat is good, while in Kingfisher, Blaine and Canadian counties its condition is only fair.

In all of the region I have named the wheat can get along without rain until, say, the first of April, without serious damage.

"In all the counties lying west of the Rock Island track and extending from the Kansas line southward to Texas, the condition of the wheat is poor and only about sixty per cent of a crop will be raised."

Washington, March 25.—Only matters pertaining to individual departments were considered at the cabinet meeting today, assurance being given that no questions of general importance were discussed.

New York, March 25.—The final installment of the \$2,000,000 called for by Secretary Shaw in regard to the Panama canal payment, was paid into the banks of New York City today.

HARD RAINS HAVE FALLEN

Western Oklahoma and Indian Territory Helped.

DROUGHT IS BROKEN

Beaver and Woodward Enjoy First Rain For Months.

Guthrie, O. T., March 25.—Special dispatches from all over the Indian Territory and from the western counties in Oklahoma tell of hard rains which will mean thousands of dollars to the wheat and growing crops. In Beaver and Woodward counties, where it has not rained since last summer, heavy rains broke the drought. The heaviest rains are in the Indian Territory, where high water is reported in many of the streams.

DUTIES ON PRESENTS.

Appraisers' Decisions Opposed to Secretary Shaw's Policy.

Washington, March 25.—The opinion of Mr. Somerville, handed down from the general appraisers' bench in New York last week, declaring dutiable some of the personal belongings of A. Obendorf with the law would permit. It seems unlikely that he would pay any attention to an opinion of the general appraisers if he regarded it as in conflict with the broader principles laid down by the circuit court.

REPORTS A TORNADO.

Several Persons Injured but No One Has Been Killed.

Fort Smith, Ark., March 25.—Passengers on a belated train on the Arkansas Central railroad, report a destructive tornado in a strip of country near Spring Hill, Ark. Several persons are reported injured, but so far as can be learned no one was killed.

A passenger, says that as far as the eye could reach the destruction appeared complete. Not a tree was left standing and houses were razed.

BUBONIC PLAGUE APPEARS.

Breaks Out at Three Ports in South America.

Washington, March 25.—United States Minister Dudley cables the state department from Lima today that bubonic plague has broken out at San Pedro, Callao and Lima.

CASTORIA.

WOULD SELL INFORMATION.

Wished to See the Police Captain in Secret Conference.

New York, March 25.—According to the Evening Post, two men, apparently tramps, went to police headquarters last night and said they wished to see Captain Langan in secret conference, as they had important news. They gave their names as "Sid" O'Brien and "Jack" Mullin, and when Captain Langan had admitted them into his room they said they wished to sell some information about a safe cracking that was about to be pulled off by "regmen."

"What do you want?" the captain asked. "Fifty" was Mullin's reply.

Captain Langan remarked that the police department didn't pay for information.

As a Spring Medicine and Tonic Paw-Paw has no Equal

Munyon's Paw-Paw Tonic for sale at all druggists. Paw-Paw Laxative Pills—the best Stomach and Liver Pills on earth—25c a bottle.

tion in advance, but that if the men were caught the money would be forthcoming. Mullin then said that while O'Brien and he were walking along the New York Central tracks they frequently came to fire where other tramps were staying, and met many "regmen." These men, the tramp said, had talked frequently of a safe cracking that was to come off last night on Park Row. The place, Mullin declared, was a social club, where there was \$500 in the safe.

Captain Langan called a detective and started out with the tramps to try to find the place, Park Row and the Bowery were walked from one end to the other, and the tramps failed to locate the social club. A lodging house where Mullin said he had met the "regmen" was also visited. About fifty men were sitting in the rooms, but Mullin could not find any of the men he had talked of. Finally, Captain Langan ordered the tramps to be taken back to police headquarters. When Mullin was searched, an eighteen-inch gold pipe was found on him.

"I suppose the regmen gave you that," remarked the captain.

A WONDERFUL CURE OF RHEUMATISM

Joseph Laughran
A WELL KNOWN PITTSBURGH
MAN TELLS A REMARKABLE
STORY OF CURE

If it was not for the fact that Mr. Laughran is known to me to be perfectly reliable and trustworthy in his statements I would find it difficult myself to credit his remarkable story. Read what he says. If you doubt, go and see him or write him a letter.—MUNYON.

Mr. Laughran's Story

Munyon's Paw-Paw has effected a wonderful cure for me. I was troubled with rheumatism, varying from severe sciatica and lumbago to intense rheumatic pains. At times I was bordering on helplessness. My physician told me that it was in my blood. He failed to relieve me and I tried severely largely advertised remedies, all of which left me in the same condition. A few weeks ago, at the earnest advice of a friend, I purchased a bottle of Munyon's Paw-Paw. Before I had finished half of the bottle I felt a great relief. My indignation was dissipated and I could sleep comfortably. Before finishing the second bottle I found permanent relief. My blood now circulates properly, my appetite and digestion is excellent and every symptom of rheumatic pain is gone. I do not know of such a beneficial tonic as Paw-Paw.

(Signed) JOSEPH LAUGHAN
1240 Rebecca St., Allegheny City, Pa.

Catarra of Stomach Cured With One Bottle of Paw-Paw

I was a severe sufferer with Catarrh of the Stomach, indigestion and grippe. I used numerous remedies with but periodical benefit. I tried Munyon's Paw-Paw and before I had finished half a bottle I felt as if I had not felt before since contracting the terrible ail. By the time the first bottle had been used I was perfectly cured, and although it has been more than a month since I used that wonderful tonic, I have not had the least sign of returning trouble. I can heartily recommend Paw-Paw, feeling that it has permanently cured me.

(Signed) WM. BRAY
415 Federal St., Allegheny City, Pa.

Such startling cures have heretofore been unknown in the history of medicine. Druggists and doctors say that ever I have used, I have not had the least sign of returning trouble. I can heartily recommend Paw-Paw, feeling that it has permanently cured me.

nothing like it was ever known. Sufferers from Catarrh of the Stomach or Rheumatism should lose no time if they want to be well. Go to the nearest drug store today and get a bottle of Paw-Paw and let the good work go on. No waiting for results with Paw-Paw. The process of cure begins with the first dose and improvement is constant until the cure is complete.

As a Spring Medicine and Tonic Paw-Paw has no Equal

Munyon's Paw-Paw Tonic for sale at all druggists. Paw-Paw Laxative Pills—the best Stomach and Liver Pills on earth—25c a bottle.
